

IEEE Signal Processing Society
Industrial Innovation Award

The Industrial Innovation Award honors a person who contributes to major industrial accomplishments, standards, deployment of important processes or products, etc, that are of substantial benefit to the public in the field of communications and information technologies and visible beyond the company or institution where the contribution was made.

2017	Richard F. Lyon , for contributions in integrated circuits, cameras, and audio processing.
2016	No recipient.
2015	Gary Elko , for outstanding contributions towards industrial research and commercialization of innovative electroacoustic devices and microphone array signal processing.
