

# IEEE JOURNAL OF SELECTED TOPICS IN SIGNAL PROCESSING

[www.ieee.org/sp/index.html](http://www.ieee.org/sp/index.html)

MAY 2019

VOLUME 13

NUMBER 2

IJSTGY

(ISSN 1932-4553)

## ISSUE ON DATA SCIENCE: MACHINE LEARNING FOR AUDIO SIGNAL PROCESSING

AWARDS	
Article Awards for the IEEE JOURNAL OF SELECTED TOPICS IN SIGNAL PROCESSING .....	202
EDITORIAL	
Introduction to the Issue on Data Science: Machine Learning for Audio Signal Processing .....	
..... <i>H. Purwins, B. Sturm, B. Li, J. Nam, and A. Alwan</i>	203
PAPERS	
Deep Learning for Audio Signal Processing . . . . . <i>H. Purwins, B. Li, T. Virtanen, J. Schlüter, S.-Y. Chang, and T. Sainath</i>	206
TimeScaleNet: A Multiresolution Approach for Raw Audio Recognition Using Learnable Biquadratic IIR Filters and Residual Networks of Depthwise-Separable One-Dimensional Atrous Convolutions .....	
..... <i>É. Bavu, A. Ramamonjy, H. Pujol, and A. Garcia</i>	220
Quality Control in Remote Speech Data Collection . . . . . <i>A. H. Poorjam, M. A. Little, J. R. Jensen, and M. G. Christensen</i>	236
Modulation Filter Learning Using Deep Variational Networks for Robust Speech Recognition .....	
..... <i>P. Agrawal and S. Ganapathy</i>	244
Voice Activity Detection for Transient Noisy Environment Based on Diffusion Nets .....	
..... <i>A. Ivry, B. Berdugo, and I. Cohen</i>	254
An End-to-End Multimodal Voice Activity Detection Using WaveNet Encoder and Residual Networks .....	
..... <i>I. Ariav and I. Cohen</i>	265
A Statistical Inference Framework for Understanding Music-Related Brain Activity . . . . . <i>S. Ntalampiras and I. Potamitis</i>	275
Comparison and Analysis of SampleCNN Architectures for Audio Classification .....	
..... <i>T. Kim, J. Lee, and J. Nam</i>	285
Deep Archetypal Analysis Based Intermediate Matching Kernel for Bioacoustic Classification .....	
..... <i>A. Thakur and P. Rajan</i>	298
Polyphonic Sound Event Detection by Using Capsule Neural Networks .....	
..... <i>F. Vesperini, L. Gabrielli, E. Principi, and S. Squartini</i>	310
A Subject-Driven Unsupervised Hidden Semi-Markov Model and Gaussian Mixture Model for Heart Sound Segmentation .....	
..... <i>J. Oliveira, F. Renna, and M. Coimbra</i>	323
Unsupervised Low Latency Speech Enhancement With RT-GCC-NMF .....	
..... <i>S. U. N. Wood and J. Rouat</i>	332
Adversarial Training for Speech Super-Resolution .....	
..... <i>S. E. Eskimez, K. Koishida, and Z. Duan</i>	347
Monaural Source Separation in Complex Domain With Long Short-Term Memory Neural Network .....	
..... <i>Y. Sun, Y. Xian, W. Wang, and S. M. Naqvi</i>	359
Phasebook and Friends: Leveraging Discrete Representations for Source Separation .....	
..... <i>J. Le Roux, G. Wichern, S. Watanabe, A. Sarroff, and J. R. Hershey</i>	370
Information for Authors .....	383
